

Don't Let Your Skin Look Like a Jack-O'-Lantern

2323 Oregon Pike, Lancaster • 717-569-4754

Glow this fall with the Renewal Center's anti-aging treatments!

Pumpkin spice is great, but pumpkin skin? Not so much.

As the leaves turn and Halloween decorations go up, it's easy for your skin to show the signs of stress, sun damage, and aging: making that festive pumpkin glow look a little too familiar on your own face. Luckily, at the Renewal Center inside Universal Athletic Club, we have the tools to keep your skin youthful, radiant, and far from jack-o'-lantern territory.

LightStim for Wrinkle Reduction

Our LightStim technology uses LED light therapy to stimulate collagen and elastin, reducing fine lines and helping your skin maintain that plump, youthful glow. Say goodbye to "creepy pumpkin wrinkles" before they appear.

Ballancer Pro for Facial and Body Rejuvenation

Circulation is key to healthy skin. The Ballancer Pro system helps reduce puffiness and improve lymphatic drainage, leaving your face and body looking refreshed and revitalized - just in time for fall festivities.

Novothor for Anti-Aging at the Cellular Level

Novothor's whole-body electro-magnetic stimulation isn't just for fitness—it helps stimulate muscle and skin health, giving you a subtle lift and helping maintain skin firmness. Perfect for keeping your skin from sagging like a tired jack-o'-lantern.

Professional Guidance

Our team of experts customizes treatments based on your skin's needs and your anti-aging goals, so you're not just masking signs of aging - you're actively improving your skin's health.

This October, treat your skin better than a carved pumpkin. Let us help you glow all season long
